Researches made into American or Foreign works, to determine the validity or utility of Patens or Inventions,—and legal or other advice or inventions,—and legal or other deviated at Washington.

This Age way is not only the largest in New Brigtand, but through it inventors have all vantages for securing patents, or assertating the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to ne cumulate a vast collection of specifications no efficial decisions relative to patents. JERSEY,

An old estatets consisting of several thousands of severs of productive soil has been divided into Farms of various sizes to sait the purchisor. A population of some Fifteen Hundred, from various parts of the middle States and New Beigland have settled there the past year, improved the places, and raisated excellent crops. The price of the land is at the low sum of from \$15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Psaches, Grapes and Frenchelses. IT IS CONSIDERRO THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops significants assen. By examining the place itself, a correct judgment can be formed of the productive aces of the land. The tenus are are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some a rec hundred houses have been erected, two mils, one steam, four stores, some forty vineyards and Peach or-chards, planted, and a large number of other impravements, making it a desirable and netive place of business.

BECTIN THE UNION.

is the reader may preseive from its toestion is the BPTILITEE UNION.

Production brinking double the price than in location away from the uity, and more than double the price than the West. It is known that the earliest and best fruits and vegerables in this latt inde come from New Jersey, and we annually exported to the extent of millions.

In locating here, the settlers has many individual says. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, the interest of the free desired and find the cut hay every article he wants at the chasper price, and sell his produce for the nighters, the the West this is researced,) he has almost for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown.—The result of the change upon those from the north, his generally been to restore them to an excellent state of health.

In the way of building and improving, lumber on be obtained at the mills at the rate of \$10 ts \$\frac{3}{2}\$ iper thousand. Bricks from the brick yard opened in the place, every article can be procured in the places, good parpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless those attaments were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such site extent of the sotlement that they will no doubt, meet persons from their own neighborhood; there will visit ness the intension and he ready to purchasing the intensity of the property of the property of the solutions who imprine The Ratificant Company

This DELICIOUS TONIC especially designed for the use of the MEDICAL PROFESSION and the FAMILY, possesses those intrinsic medicinal properties (Tonic and Dinretic) which belong to an Old and PURE GIN. The business of manufacturing spurious gins, and offering them as heverages, under the titles, "Aromatic,"-" Cordial,"-" Medicated," etc., has become so common, that the publie are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation - founded upon eighty years of experience - abundantly vindicates our claim to public confidence.
